

Roland Williams Job Shadowing Scheme 2026

The All Wales Special Interest Group invites Dentists in Wales who have an interest in Special Care Dentistry (SCD) to apply for the Roland Williams Job Shadowing Scheme for 2026.

This scheme is aimed at dentists who would either like to further the knowledge in SCD that they already have, or for those who have limited experience of SCD, but would like to expand on their knowledge and understanding of SCD.

SCD is concerned with the improvement of the oral health of individuals and groups in society who have a physical, sensory, intellectual, mental, medical, emotional or social impairment or disability or a combination of these factors. The specialty focuses on adolescents and adults only and includes the important period of transition as the adolescent moves into adulthood.

Special Care Dentistry Modules

Successful applicants will have the option of choosing a module, to cover an area of SCD they wish to gain more of an understanding of. Or for those who wish to acquire a more general overview of SCD, they could choose the 'SCD in the Community Dental Service' module.

Listed below are the SCD modules available and examples of what could be included in each module. Each module can be tailored to suit the experience and specific needs of the applicant.

Successful applicants will be allocated to Consultants, Specialists in SCD, Senior Community Dentists, Dental Therapists/Hygienists, Dental Nurses and Oral Health Educators/ Improvement practitioners to meet their objectives.

- For applicants who don't have specific learning objectives and want to develop an overview of Special Care Dentistry and the services provided for vulnerable adults in the Community Dental service
- Would include a combination of the modules listed above

Core aims of the scheme

Some central issues will be covered during the scheme.

- Types of clients and the health, social, cultural and environmental factors associated with various conditions.
- Where they reside within the community, how to identify them and the different ways in which the client group can be accessed.
- The agencies involved in their care i.e. carers, voluntary sector, health, social services.
- Health problems and effects on oral health plus specific barriers to oral health care.
- Oral health and dental care for the client group i.e. care pathways, oral health risk assessments, treatment planning, skill mix, sedation, GA.
- Consent, MCA, DOLs, IMCA, communication, clinical holding, risk assessment and risk management.
- Dental services, sites and oral health care programmes i.e. oral health promotion/prevention/education, domiciliary care, mobile dental units, mix and match approaches.
- Publications, national and local policies that influence their care i.e. DDA, National Service Frameworks, SIG, BSDH and BSG guidelines etc

Who can apply?

Dentists from across Wales are eligible to apply.

This is an all-Wales scheme to ensure that an extensive range of opportunities and experiences are available to participants. Participants will be allocated to a placement which best suits their chosen module. Whilst every effort is made to minimise travel, participants may need to travel to any of the Welsh Health Boards (with an overnight stay if this involves a significant distance). This can be further discussed on successful appointment.

Support from applicant's Health Boards

Applicants **must** have the full backing and support from their employer and have approval for at least two study days. There is no charge for attending the shadowing days, however all accompanying expenses (e.g. travel, accommodation and subsistence) will need to be supported and covered by either the applicant or their employer.

Organisation

Successful applicants will be given the contact details of the speciality leader they have been allocated to and advised to contact them to make arrangements. A date will be agreed for the job shadowing to take place and confirmed in writing by the speciality leader. If another applicant has chosen the same topic then all three will agree a date. The speciality leader will help the applicant by supplying accommodation and travel information.

Case Studies and Evaluation of the scheme

To validate the scheme, each applicant has the opportunity to submit two case studies, one for each module covered in the scheme, a template for these case studies will be provided. Applicants are also required to submit an evaluation of the scheme once they have completed their two days of job shadowing. A certificate of completion of the Roland Williams Job Shadowing Scheme will be issued once satisfactory case studies and an evaluation form have been submitted. Certificates will be presented at the SIG Study Day 2025.

Any queries please email – sophie.bryant3@wales.nhs.uk

Closing date for applications: 5th December 2025
